

# How to divert waste at your litter cleanup event

---

**AT YOUR LITTER CLEANUP EVENT,  
YOU HAVE TWO OPTIONS:**

- 1** Use clear bags to collect all litter (everything is sent to the landfill)
- 2** Use clear bags for trash and divert specific items from the landfill by using blue recycling bags and/or orange Hefty® EnergyBags®

## WHAT IS THE HEFTY® ENERGYBAG®?

The Hefty® EnergyBag® program collects non-recyclable soft plastics which cannot currently be mechanically recycled, and converts the material into new resources through energy recovery.

### BLUE RECYCLING BAG

Plastic bottles  
& metal cans

- » Empty the recyclables out of the blue bag and into your curbside recycling bin or into a recycling container at an Omaha drop-off site. See location information on the back.
- » You can put the empty blue bag in your orange Hefty® EnergyBag®.

### ORANGE HEFTY® ENERGYBAG®

Styrofoam and soft/flexible  
plastics like:

- » Plastic shopping bags & ziplock bags
- » Chip & snack bags
- » Candy & food wrappers
- » Juice pouches
- » Plastic utensils & straws

- » Orange Hefty® EnergyBags® are the **ONLY** plastic bag that can go in the recycling bin!
- » Tie the bag shut and place it in your curbside recycling bin or take it to an Omaha drop-off recycling site. See location information on back.

### CLEAR TRASH BAG

Everything else!

Please note that it is better to throw littered items in the trash rather than contaminate the recycling stream with non-recyclable materials.

*When in Doubt, Throw it Out!*

- » If in a park or along a trail, simply place the trash bags in or near a park trash can.
- » You can also ask a nearby business to use their dumpster or take the bags home.

What goes in  
each bag?

What do I do with  
my bags after  
the cleanup?

---

# Omaha Recycling Drop-Off Locations

 **WEST** 208th & Elkhorn Dr.

 **NORTHWEST** 120th & Maple St.

 **NORTHEAST** 17th & Burt St.

 **SOUTHEAST** 60th & Harrison St.

 **SOUTHWEST** 102nd & I St.
